A. Leaving the tap running while brushing

C. Washing the car every day

B. Turning off the tap while brushing ✓

D. Filling the bucket and letting it overflow

SECTION B — Short Answer Questions (2 Marks each)

1. Name any two sources of fresh water that you know. (0 Marks)

► Rivers and rainwater are two common sources of fresh water. Wells and lakes are also fresh water sources.

2. Why is water called the "essence of life"? (0 Marks)

► All living things - plants, animals and humans - need water to survive, grow and stay healthy, so water is essential for life.

3. Name two rivers of India. (0 Marks)

► The Ganga and the Yamuna are two well-known rivers of India.

4. What is a balanced diet? (0 Marks)

► A balanced diet is a meal that contains the right amount of all the food groups - carbohydrates, proteins, fats, vitamins and minerals - needed by our body.

5. Why do we cook food before eating it? (0 Marks)

► Cooking makes food softer, easier to digest, kills harmful germs, and improves its taste.

6. Name two people who work in our school other than teachers. (0 Marks)

- The principal and the school peon (or the librarian and the cleaning staff) are examples of other people who work in a school.

7. Why should students keep their classroom clean? (0 Marks)

- A clean classroom keeps students healthy, free from germs, and makes it a pleasant place to learn.

8. What does "unity in diversity" mean for India? (0 Marks)

- It means that even though India has people of many languages, religions and cultures, they all live together as one nation.

9. Name two national symbols of India. (0 Marks)

- The National Flag and the National Anthem are two national symbols of India. The Lotus (national flower) is another example.

10. Name any one famous monument of India and the city it is in. (0 Marks)

- The Taj Mahal is a famous monument located in Agra.

11. What makes a place a "tourist place"? (0 Marks)

- A place becomes a tourist place when it has something special to see, such as historical monuments, natural beauty, or cultural importance, that attracts visitors.

12. Why should we not litter around historical monuments? (0 Marks)

- Littering damages the beauty and cleanliness of the monument and can harm the structure, so we should keep such places clean for everyone to enjoy.

13. Name two ways rivers are useful to us. (0 Marks)

- Rivers give us drinking water and are used for irrigating farms. They are also used for transport and generating electricity.

14. What should we do if we see food being wasted at home or school? (0 Marks)

- We should politely tell others not to waste food, take only as much as we can eat, and remember that food should be respected because many people do not get enough to eat.

SECTION C — Short Answer Questions (Explain) (3 Marks each)

1. Explain in your own words why water should not be wasted. (0 Marks)

- Fresh water is limited even though most of the Earth is covered with water, because most of it is salty ocean water.
- Many people, animals and plants depend on the small amount of fresh water available.
- Wasting water can lead to shortages for others, so we must use it carefully.

2. Describe how a river changes as it flows from the mountains to the sea. (0 Marks)

- Near the mountains, the river flows fast over rocks and is narrow.
- As it moves onto flatter land, it becomes wider and slower, and other small streams (tributaries) join it.
- Finally, it flows into the sea, carrying water collected along its whole journey.

3. Why is it important to eat food from different food groups every day? (0 Marks)

- Each food group gives our body something different - carbohydrates for energy, proteins for growth, and vitamins/minerals to stay healthy and fight disease.
- Eating only one type of food can make us weak or unwell, so a mix keeps our body working well.

4. Describe two rules that make a school a happy and safe place. (0 Marks)

- Being kind and respectful to classmates and teachers helps everyone feel safe and welcome.
- Following rules like standing in line, keeping the school clean, and not fighting keeps the school a happy place for all.

5. How does India show "unity in diversity"? Give an example. (0 Marks)

- India has people who speak many different languages, follow different religions, and celebrate different festivals.
- Yet, they all come together as one country, for example celebrating national festivals like Independence Day together, showing unity despite the differences.

6. Why do people from other places like to visit unique places such as monuments or hill stations? (0 Marks)

- Such places have something special - old monuments show India's history, while hill stations and beaches show its natural beauty.
- Visiting these places helps people learn about the country's history and enjoy nature, which is why they attract many tourists.

SECTION D — Long Answer / Descriptive Questions (5 Marks each)

1. Describe the journey of water from the sky to a river in the form of the water cycle. (0 Marks)

- The sun heats water in oceans, rivers and lakes, causing it to evaporate and rise up as water vapour.
- High up in the sky, the vapour cools down and condenses to form clouds.
- When clouds become heavy, the water falls back to the Earth as rain (or snow in cold places).
- This rainwater flows into rivers, lakes and the ground, and the cycle continues again and again.

2. Explain what a balanced diet is and why it is important for children like you. (0 Marks)

- A balanced diet has a mix of carbohydrates (like rice and roti) for energy, proteins (like dal and eggs) for growth, and fruits and vegetables for vitamins and minerals.
- It also includes a small amount of fat and enough water.
- For growing children, a balanced diet keeps the body strong, helps the brain to think well, and protects against illness.
- Eating too much junk food instead of a balanced diet can make children weak or unhealthy.

3. Write a short note on any one unique place in India that you have read about or visited, describing what makes it special. (0 Marks)

- One unique place in India is the Taj Mahal in Agra, a monument built with white marble.
- It was built by Emperor Shah Jahan in memory of his wife Mumtaz Mahal, and it is known for its beautiful design and carvings.
- It attracts visitors from all over the world and is one of the most famous monuments in the world.
- Places like this remind us of India's rich history and the skill of the people who built them long ago.
