SECTION – A (READING) — 18 Marks

Read the passage and the poems below and answer the questions that follow.

It was a summer afternoon, and Gopi was reading a book in the veranda when he heard a rustling sound followed by a thud in the garden. Thinking a mango had fallen, he ran outside to look. After searching near the fence and among the bushes, he found nothing — until he noticed a heap of dry leaves with a white ball resting on top. It was a hockey ball.

That evening, Gopi took the ball to the playground, where his friends regularly gathered to play hockey, and asked if anyone had lost one. Manoj said he had lost his ball four months ago, so Gopi knew it couldn't be his. Ramani claimed it might be hers, while Deepak boasted about the brand-new football his father had just bought him. Since no one could prove ownership, the friends decided to use the ball to play a game.

During the game, Jay hit the ball so hard that it flew past the playground gate and landed in the basket of a passing scooter. The rider, unaware of what had happened, drove off — taking the ball with him. The children looked at each other and burst into laughter.

(Adapted from 'Gone with the Scooter')

Papa's Spectacles

Today our papa
Is searching everywhere,
He has lost his spectacles,
It was his only pair!

He can't read the newspaper,
He can't watch TV,
He can't cut the vegetables,
Oh! Where can it be?

He checked inside his pockets,
He glanced under his chair,
He searched near the window,
He looked everywhere.

I told him, 'Stop, Papa!'
I went up close, and said!
'Papa, your spectacles
Are right there on your head!'

The Rainbow — *Christina Rossetti*

Boats sail on the rivers,
And ships sail on the seas;
But clouds that sail across the sky
Are prettier far than these.

There are bridges on the rivers,
As pretty as you please;
But the bow that bridges heaven,
And overtops the trees,
And builds a road from earth to sky,
Is prettier far than these.

SECTION – D (LITERATURE) — 14 Marks

1. Explain in your own words why the poet finds 'the bow that bridges heaven' more special than ordinary bridges seen on rivers.

➤ Because while ordinary bridges are man-made and connect two points on land, the rainbow seems to connect the earth to the sky itself, making it feel magical, vast, and far more wondrous than anything people can build.

2. Why do you think the author of 'Gone with the Scooter' chose to end the story with the ball disappearing again, rather than being safely returned to an owner?

➤ It creates a light-hearted, ironic ending that reflects real life, where good intentions do not always lead to neat outcomes, while still leaving the characters (and readers) amused rather than upset.

3. What does the poem 'Papa's Spectacles' suggest about how people sometimes overlook the obvious?

➤ It suggests that when searching for something, people can overlook the most obvious place, since Papa searched everywhere except the one place the spectacles actually were: on his own head.

4. Write the meaning of the word 'dribble' as used in 'Gone with the Scooter'.

➤ To move a ball forward with a series of small taps, especially in hockey or football.

5. Write the meaning of the word 'searching' as used in 'Papa's Spectacles'.

➤ Looking carefully for something in order to find it.

6. Write the meaning of the word 'bridges' as used in 'The Rainbow' ('the bow that bridges heaven').

➤ Connects or joins two places; here it means the rainbow seems to join the earth and the sky.

7. Compare the tones of 'Papa's Spectacles' and 'Gone with the Scooter'. How are they similar?

➤ Both have a light, humorous tone and end with an unexpected but amusing twist, showing everyday situations turning out differently than the characters initially expect.
